PETITION FOR REVIVAL (37 CFR 1.137(a))
4. Showing of the cause of the Delay

The Notice of Abandonment herein mailed March 22, 2005, was incorrect and improper.

In the Appeal Decision herein, on September 22, 2004, the Final Rejection under 35 USC 103 was reversed.

In addition, there was a provisional Double Patenting rejection over copending Application SN 09/213,858 assigned to a common assignee which the Examiner and Applicant concurred was provisional until allowable subject matter was found in copending Application SN 09/213,858.

Applicants indicated in their Appeal Brief that they were prepared to file an appropriate Terminal Disclaimer in this Application as soon as allowable subject matter were found in copending Application SN 09/213,858.

The Decision on Appeal which reversed the 35 USC 103 rejection, stated that the provisional Double Patenting rejection was affirmed.

On October 6, 2004, being aware that allowable subject matter was indicated by the present Examiner in copending Application SN 09/213,858, (now US Patent 7,206,747) the Applicants filed a Response herein including an appropriate Terminal Disclaimer.

What the Examiner should have done, upon finding allowable claims in copending Application SN 09/213,858 would have been to reopen Ex parte prosecution in the present Application and finalize the provisional Double Patenting Rejection, and then either accept the Terminal Disclaimer already filed herein, or give Applicants an opportunity to respond to the final double patenting rejection.

There was no basis for the Examiner's Notice of Abandonment of March 22, 2005.

Applicants have acted diligently in trying to have the U.S. Patent correct the present situation:

On April 7, 2005, Applicants filed a Formal Response to the Notice of Abandonment which included the above explanation which included a Status Inquiry.

Also on April 7, 2005, Applicants sent Examiner Angela A. Armstrong and her Supervisor Richemond Dorvil by facsimile a supplementary inquiry which requested the presently requested correction and relief.

This was followed up by the following telephone inquiries:

May 10, 2005, telephone message sent for Examiner Armstrong.

May 12, 2005 follow up message for the Examiner.

On May 20, 2005, the Office of the undersigned Attorney was advised by telephone that the Patent Office was issuing a Notice of Allowance in Copending Application SN 09/213,858, and the Abandonment Notice herein would be withdrawn so that Applicants given the opportunity to use their Terminal Disclaimer to avoid the now allowed claims in the copending Application. Attorney's Office was advised by Examiner that the above procedure would be completed by the first week in June, 2005.

On June 7, 2005 when nothing was forthcoming, a telephone message was left for Examiner Armstrong.

On July 21, 2005, a follow up message was left for Examiner.

On July 28, 2005, a follow up message was left for Examiner.

On August 18, 2005, a follow up message was left for Examiner.

Over the ensuing months, anticipating imminent correction on the part of the Patent Office, the Office of the Attorney did make several follow-up telephone inquiry calls with no significant results. These were not noted in our logs because there was nothing to report. However, after an inquiry by telephone by Attorney's Office, Examiner Armstrong, on June 1, 2006 indicated that the Notice of Allowance in Copending Application SN 09/213,858 should have mailed, and the Abandonment Notice herein would be withdrawn.

SN. 09/213,856
(Petition 37CFR1.137(a)
12/24/2008

On June 15, 2006, a telephone inquiry was made with no results.

On July 16, 2006, the undersigned, J. B. Kraft was concerned about the delay in action in the U. S. Patent Office, and filed a Petition to the Director of the USPTO Under 37 CFR 1.181 requesting the withdrawal of the Notice of Abandonment, and allowance of the present Application. (A copy of the Petition including a certificate of mailing by J. B. Kraft is attached hereto as Exhibit "A".) Recent telephone inquiries made to USPTO about the July 16, 2006 Petition have indicated that the USPTO can not locate the Petition.

Applicants believe that they have brought this situation to the attention of Examiner immediately after its discovery, and had assurances from Examiner that appropriate action would be taken by the Patent Office with no significant results. Applicants believe that they have done everything possible to try to resolve the present problem.

Accordingly, the Patent Office is respectfully requested to withdraw the Abandonment of this Application, enter the Terminal Disclaimer submitted on October 6, 2005, and allow claims 1-3, 5-8, 10-13, and 15.

Respectfully submitted,
